

About Me

My name is Eren, and I am 21 years old. I am studying software development because I love working with technology and solving problems. I have experience with HTML, JavaScript, and PHP, which help me create websites and web applications. I enjoy coding because it allows me to be creative and build useful projects.

EREN ÖZTÜRK

Junior Software
Developer

Education

MBO College Airport 2022 – 2023

Medewerker Facilitaire Dienstverlening

MBO College Zuidoost 2023 – 2024

Medewerker ICT Support

MBO College Zuidoost 2023 – 2024

Software developer

Work Experience

Stagiair IT support 2023 – 2024

FixitNu

Worked as an intern at FixitNu, a phone repair shop. Assisted with phone repairs, customer service, and basic technical tasks.

Shelf stacker 2020 – 2021

Albert Heijn Supermarket

Worked as a store employee at Albert Heijn. This was my first job when I was younger, where I gained my first work experience. Built good friendships with colleagues, learned teamwork, responsibility, and how to work in a fast-paced environment.

Merchandise team leader 2019– Today

Hoogvliet Supermarket

Worked part-time at Hoogvliet as a side job to earn extra income. Responsible for shelf stocking, keeping the store clean and organized, and assisting customers when needed. Learned to work efficiently, follow instructions, and manage time well.
